

Supervised Child Care Experience Form

It is required that prospective caregivers obtain 40 hours of direct child care experience prior to caring for children at the Specialized and Intense Levels of Care. You may do this by becoming approved as a babysitter for Crescent City Youth and Family Services, or you may request a list of available locations for the observation hours from your Family Development Specialist after your background check has been cleared. If you know a licensed foster parent (licensed by Crescent City Youth and Family Services or another child placing agency), and you have spent at least 40 hours observing them and learning from them, they may sign this form for you.

Supervised Child Care Experience Documentation

This is to verify that _____ has satisfactorily completed 40 hours of supervised child care experience, in a supervised setting with the following agency and/or foster home.
